**What you do for the next 5 minutes WILL make a difference!**

On August 14<sup>th</sup>, 2008, Congress passed the Consumer Product Safety Improvement Act of 2008 (CPSIA). The law prohibits the sale of children's products that contain lead. The unintended effect to the youth off-highway vehicle market has resulted in a ban of all youth motorcycles, ATVs and snowmobiles.

"Please take five minutes to visit the site below and submit a form letter to your senators and congressmen (the form will automatically find them and submit the letter, all you need is your name, address, etc) urging them to support the petition submitted by the Motorcycle Industry Council and Specialty Vehicle Institute of America to exclude youth OHVs from the Consumer Product Safety Improvement Act of 2008 (CPSIA) lead content requirements. The whole process will take you less than five minutes."
